51-50 win

Raiders hit Rustburg

The varsity Raider basketballsquad scored its eighth win of the season Monday night in a dramatic 51-50 victory over Seminole District rival Rustburg.

The Raiders were dominated by Rustburg throughout most of the first half, but fought back in the waning moments of the second quarter and tied the score at 25-25 on a layup by Dennis Fleshman as the buzzer sounded ending the first half.

The third quarter was even, with both teams battling shot for shot. The period ended in a 41-41 tie.

Times-Virginian

Sports

In the final period, the Raiders and the Red Devils played even again. With time running out, however, the Red Devils gained a one-point advantage. Then, when Appomattox got the ball, the team held for a game-ending shot.

Ron Carter got open with seven seconds on the clock and made the basket, giving the Raiders a one-point lead, 51-50. The Red Devils immediately called time, and planned a play for the last seven seconds. Rustburg got the ball in bounds, but could not sink the basket before time ran out. Appomattox had the victory.

Kim Humbles led Raider scorers with 21 points, many scored on fluid layups where Humbles slipped through the Red Devil defense like a rabbit through a briar patch.

Ron Carter, whose shot with seven seconds remaining won the game, scored 10 points during the night. Norman Turner and Jeff Miller, the Raider's big men, each had eight points, and Rick Caldwell and Dennis Fleshman each had two points for Appomattox.

The Raiders hit five of eight freethrows for a 62 percent foul-shot average.

For Rustburg, Eric Scott had 10 points, Thomas Jefferson had 12, and Lincoln Woods and Gary Jefferson each had nine points to lead Red Devils scorers. The Red Devils made six of 10 foul shots for a 60 percent freethrow performance.

Following the game, Raider Coach Coty Dickerson said "we didn't know what to expect, after getting off schedule because of the weather. But the team did very well."

The coach noted that "the crowd helped us. The players responded to the crowd."

Rustburg played very well," Dickerson added. "They have a very fine ball team."

Dickerson said he was very pleased with the Raiders' defensive play, he noted that the Red Devils' Lincoln Woods, who had been averaging 21 points per game, was held to only nine points Monday night.

"Kim Humbles played the best game of his season," Dickerson added.

The coach added that Rick Caldwell played "one fine ball game," setting up the Raiders' offenses and handling the ball.

The Raiders were scheduled to play Gretna Tuesday evening at 8 p.m. at Gretna, after the **Times-Virginian** deadline.

Friday night, the Raiders are scheduled to play William Campbell at home at 8 p.m.

Appomattox now has an 8-1 record this season.

Jayvees are still unbeaten

The Junior Varsity Raider basketball team won their ninth game of the season Monday night, a 51-48 victory over Rustburg.

The win brings the junior varsity squad's record to 9-0. A defeat earlier this season at the hands of Gretna was forfeited and Appomattox was awarded the win, due to an ineligible student playing for Gretna.

Monday night, the Raiders and Rustburg played close through the first half, with Rustburg leading 7-6 at the end of the first quarter, and the Red Devils leading 23-22 at the end of the first half.

The Raiders pulled ahead in the third quarter scoring 13 points to Rustburg's nine. The fourth quarter saw the Red Devils attempt a comeback rally in the closing seconds of the same, but the effort was not enough to overpower the Raiders and the final score was 51-48, Appomattox.

Tyrone Abbitt had an outstanding night for the Raiders, scoring 26 points. Gary Ferguson had a good night also, running up 12 points for the Raiders. Ricky Miller scored six points, Louis Preston four and Todd Scruggs three to round out the scoring for the Raiders.

The Raiders hit on 11 of 20 freethrows for a 55 percent foul shot average.

Todd Scruggs lead the Raiders in rebounds, with 11 for the night. Ricky Miller had seven rebounds for the Raiders, as well.

"We had a little trouble on the offensive boards," said Coach John Pettyjohn following the game. He pointed out that the Raiders only collected four offensive rebounds for the night.

"You could tell we were a little flat tonight, especially in the first part of the game," the coach said, in reference to the loss of practice time due to recent inclement weather. "But we played tough defense, and the players hustled and kept their cool when the pressure got tough."

Coach Pettyjohn noted that several players have made outstanding defensive contributions during the past four games.

He cited Louis Preston as the outstanding defensive player in the Altavista contest, which Appomattox won, 47-44. Against Brookville in a game which the Raiders won 53-43, Pettyjohn cites the efforts of Tyrone Abbitt as outstanding on defense.

Ricky Miller and Todd Scruggs were cited by the coach for excellent defensive play against Liberty, in a game which Appomattox won 61-46. In Monday night's contest the coach cited the efforts of Ricky Miller and Gary Ferguson on defense.

The coach added that in the Liberty and Brookville games, the reserve players performed well off the bench.

The Amherst-Appomattox basketball game which was postponed Saturday night due to inclement weather, will be made up on February 3 at home.

The Buckingham game which was postponed last Tuesday due to Buckingham's examinations, has been re-schedule for Friday, February 26 at Buckingham.

Game time for both games is 8 p.m.

Vollyball season slated

By TAMBRA HAMLET

Tryouts for the 1982 volleyball team were held the week of December 14-18, 1981. An exceptionally large number of thirty-five hopefuls turned out for the week long tryouts.

This year's team has five returning lettermen. They are: seniors and tri-captains - Angie Moore, Angie Murray, and Rhonda Jaggars; and juniors - Patty Roach and Ruby Smith.

Those returning from last year's team that did not letter are: juniors - Suzan Eye and Cheryl Williams; and sophomores - Tambra Hamlet, Kim Hancock, and Diann Harvey.

This year's team has five new members: Janice Campbell, junior; Lisa Pannell, Kim Shupe, and Karen Stevens, all sophomores; and Delores Smith, freshman.

Last year's Raiderette volleyball team compiled a district record of 7-1 and tied with Liberty and Jefferson Forest for Seminole District championships.

Coach Lucy Harris says, "The District should be tough, but we hope to be near the top. This is the first year for a regional volleyball tournament, and we'd love to represent the Seminole District."

This year's season starts with the Raiderettes participating in an Invitational Tournament at Jefferson Forest on January 22 and 23, 1982. Mrs. Harris and all of the Raiderettes would like to encourage citizens to come out and support the Raiderettes.

All games, home and away, will be played at 7:00 p.m. Come and enjoy an evening of excitment and intense competition by watching the Raiderettes.

SCHEDULE

1-23	Invitational Tourna.	J.F.	10:30 a.m.

Saddle Club to meet

Dr. Tom Wright, veterinarian, will be the guest speaker at the regularly monthly meeting of the Equus Saddle Club on Tuesday, January 26 at 7:30 at the Farmers National Bank in the Triangle Plaza Shopping Center.

Dr. Wright, resident veterinarian at Gretna, specializes in the treatment of large and small animals.

All members are urged to attend and visitors interested in equestrian activities are cordially invited to attend.

If the Appomattox County School are closed on that date, the meeting will be cancelled.

A kitchen workhorse

By SHIRLEY W. WALTON
Extension Agent

Vinegar--A Kitchen Workhorse

We use vinegar for pickling, preserving, tenderizing tough meat and fowl and adding a sour pungent flavor to dishes ranging from vinegar pie to tomato ketchup and salad dressing. Vinegar can be used in many ways to help with our homemaking activities and to save money. They are:

Washing Windows--Use 1 cup vinegar in 2 quarts warm water.

Burned-on Food--Remove burned-on food from a cooking pot by filling the pan with a mixture of hot water, ½ cup vinegar and 2 tablespoons of baking soda. Bring to a boil and let simmer for 30 minutes.

Shower Curtains--Remove soapy film or mildew and grime from shower curtains. Wipe with a cloth dampened with vinegar and rinse clean.

Grease-Clogged Drains--Grease clogged drains can be cleaned by pouring a handful of baking soda, followed by a cup of vinegar. (No caustic fumes escape when you use this type of solution.)

Lime Deposits--These deposits in coffee pots and tea kettles or double boilers can be removed when you cover the deposits with vinegar and let them soak overnight.

Setting Colors--Add a cup of white vinegar to the water in final rinse cycle when washing new clothes. This will set the color. This also makes clothes smell fresh and clean.

Salt Stains--Salt stains from boots or shoes can be cleaned with a cloth dipped in white vinegar. Wring cloth out and wipe the boots or shoes clean.

Garbage Odors--Keep your sink's garbage disposal, trash cans and odor keeping containers free by pouring a cup of vinegar in them once a week. Let the containers stand overnight.

Ink Stains - Cover ink stains with salt for one minute. Then wipe with white vinegar.

Bread Box - Keep your bread box smelling sweet and fresh. Put one tablespoon of white vinegar in a cup of warm water and sponge clean.

Painted Walls and Woodwork - These will look like new after washing if you add a cup of white vinegar to the final rinse water.

Thermos Bottles - Clean the inside of thermos bottles with soap and water. Add a little white vinegar to the bottle and shake well. This will remove any odors that might collect.

Vinyl Floors - When vinyl floors are discolored by cleaners or lye, wash them with white vinegar and water.

Hard Cooked Eggs - Hard cooked eggs peel quickly and easily when several tablespoons of vinegar has been added to the water before cooking.

Perspiration Stains - These may be removed from clothing by sponging the clothing item with warm white vinegar. (Heat vinegar in saucepan.)

Hemlines - Remove a hemline from a garment by dampening that line with white vinegar. Rub the line briskly with an old toothbrush, cover with a pressing cloth and presto, the line has disappeared.

Note: I would suggest that you use white vinegar anytime you are cleaning plastic or fabric.

Why spend money on a multiplicity of household cleaners when vinegar can solve many problems for a fraction of the cost? This is a good way to tighten up the spending habits and improve the family's budget.

If you have a homemaking question or problem, please call 352-8244 or write P.O. Box 488, Appomattox, Va. 24522.

SUGGESTION FOR THE WEEK

If you have an elderly family member or relative, please check on them daily. This is especially important during the cold, snowy, icy weather conditions we have been experiencing. Be a good neighbor! Reach out and check on others.

RECIPE OF THE WEEK
Miss Cattie's Russian Tea

1 cup sugar (or artifical sweetner to taste)
1 cup instant tea
1½ cups powdered orange drink concentrate
1½ tsps. cinnamon, ground
¾ tsp. cloves (optional)
Very little allspice
1 pkg. lemonade mix or 2 scoops from can of lemonade mix

Mix well as listed. Add 2 heaping teaspoons to 1 cup hot water. Delicious! This is a good nutritious hot drink for a cold winter day.

Thanks to Mrs. Catherine Perdue for sharing this delicious hot drink with us.

Market set to open

By JAMES A. SMITH
Extension Agent

The fire cured tobacco market is scheduled to open January 19 for the final nine days. Recent cold weather has made preparation of tobacco difficult. Growers recognize what has to be done and need to attempt to get tobacco ready for the final sale days.

The marketing schedule is as follows:

Jan. 19 Lynchburg-Blackstone
Jan. 20 Farmville-Blackstone
Jan. 21 Lynchburg-Farmville
Jan. 26 Farmville-Blackstone
Jan. 27 Farmville-Lynchburg
Jan. 28 Lynchburg-Blackstone
Feb. 2 Lynchburg-Farmville
Feb. 3 Lynchburg-Blackstone
Feb. 4 Farmville-Blackstone

Some cattlemen didn't make the winter meeting of the Appomattox Cattlemen's Association. You can still become affiliated with this group by sending your check for $5.00 to Bill Williamson, Treasurer, Route 4, Appomattox.

• • •

Cold weather increases the possibility of house fires and there are many obvious reasons why this is true.

As the cost of fuel (oil, gas and electricity) has risen, an increase number of homes are heated with wood. Fires are now more likely from the stove or fireplace plus additional chimney fires.

A review of what has occurred over the past eight years in Appomattox County is of interest and concern. This data is from the records of the Appomattox Volunteer Fire Department.

A planned safety program is necessary and it should consist of: instruction for the family members, common sense and a preventive maintenance program. The 136 chimney fires could possibly have been prevented with proper burning of fuel and removal of creosote from the flue.

More details of proper care of stoves and fireplaces is available from the fire department or this office.

• • •

A summer program for undergraduate minority Virginians will be sponsored by the State Council of Higher Education. Qualified minority students in the final quarter or semester of their junior year of study at a state-supported institution in Virginia will be provided with academic enrichment through summer graduate study and special seminars.

The deadline for filing application is February 1, 1982. More details are available from this office.

Anyone wishing to subscribe to the new home gardener's newsletter, **The Virginia Gardener**, can do so by contacting this office.

• • •

Are you considering a micro-computer? There are at least 60 kinds on the market. All of these have come out in the past five to eight years. At least three other companies are now introducing their models.

It takes two things to make a computer function. One is **hardware**. This is the computer itself, a printer, perhaps a modum to connect the computer to your telephone and additional disc drives to store data. The second is **software** and this is possibly the weakest part. These are the programs that you can run. Software becomes obsolute much quicker than the hardware.

Cost wise, the hardware ranges from $4,000 to $6,000 and the software will run another $1000 or more depending on what you want. A price range on programs is from $100 to $1000.

Here are some questions for you to consider:
--What do you want to do with it? --Are there programs that will do what you want? --What brands are available close to you? --How good is the repair service? --What does a computer do? --Will one pay for itself in your operation? --What are computer languages? --Sizes and costs of hardware? --Costs of software?

ASCS Today

By TOM CONRAD

Agricultural Conservation Program Signup - The signup for the 1982 Agricultural Conservation Program begins Wednesday, January 20, and will run through February 26. As in past years the signup is for needed conservation work on the farm beyond that which would be done with one's own resources.

I encourage farmers to sign up as soon as possible because their practices must be approved by the County Committee before the work can begin. Farmers who start practices prior to approval are ineligible for cost-shares.

Program participants will receive federal financial assistance from 50 percent up to 75 percent for the following practies: Permanent vegetative cover establishment; Permanent vegetative cover improvement; Stripcropping systems; Terrace systems; Diversions; Grazing land protection; sod-waterways; Animal Waste control facilities; Forest tree plantings; Forest tree stand improvement. These practices are conservation oriented and will provide enduring solutions to the problems of farmland being a source of agricultural pollution or land affected by wind or water erosion.

The program also authorizes two or more farmers to pool their resources, efforts and finances to perform practices which will solve a mutual conservation problem on their farms. Long term agreements are also provided of which signup for these agreements will be held from January 20 through January 27. Special or small farm projects are also included to help small or low-income farmers solve their conservation problems.

Program practices last year have corrected conservation problems on over 1500 acres of Appomattox County farmland.

The program is a joint effort by farmers and Government to restore, protect, and preserve the environment. For more complete details on specific practices, call or visit the ASCS Office, Courtland Building, Court Street, telephone 352-5283.

New Grower Tobacco Allotments - February 15 is the deadline for requesting a tobacco new grower allotment.

You must earn 50% of your income from farming, now own or operate another farm with a tobacco allotment, have experience in growing the crop in at least two of the last five years and must own the farm.

Report of Payments - During the last two weeks of January Form CCC-182, Report of Payment to Producers, will be mailed to producers who received ASCS payments during 1981. This is to assist you in preparing your income tax returns. If you have questions, please contact the ASCS office.

4-H news

By VALERIE GUILL

Miss Krufka's 4-H Club had a meeting on Jan. 11. Angela Schum and Tina Grove led us in the Pledge of Allegiance and the 4-H Pledge. The recreation leaders then led us in a fun game of "Pin the Tail on the Donkey," an oldy but goody.

Tina Grove, the secretary, read the minutes of the last meeting. Mr. Sweet reminded us about strawberry orders. He also showed a filmstrip on Share-the-Fun.

The president then adjourned the meeting.
